OVERVIEW

VOLUME I: DEPARTMENT SUMMARY BUDGETS

The information presented in this volume bridges the gap between the citywide summary information provided in the Mayor's Summary and the comprehensive detail provided in Volume II, Department Detailed Budgets by providing an overview of each department's budget.

The information in this volume presents each department's budget in two formats: first, a written description, and second, a budget summary displaying the budget at the department level by fund source. The written description, or summary explanation, provides an overview of each department's organization and responsibilities and relates these to the department's budget. The summary explanation includes an overview of the department, a list of the major budget adjustments for 1991/92 and those proposed for 1992/93, and descriptions of the programs within each department.

The budget reports following the summary explanations are in three parts: a summary of revenues, a summary of expenditures by object, and a summary of positions. These reports present the information at the department level by funding source, rather than at the program level as in Volume II. Budget columns on the reports show 1990/91 actuals, the 1991/92 revised budget, the 1992/93 department request and the Mayor's proposed budget for 1992/93. For 1992/93, both standardized and unstandardized amounts are presented.

PUBLIC WORKS

27 AIRPORT

DEPARTMENT SUMMARY

The San Francisco International Airport is located in an unincorporated area of San Mateo County and is operated by the five member Airports Commission appointed by the Mayor of San Francisco. The Airports Commission is responsible for providing domestic and international passengers and Airport tenants with a safe, attractive and convenient facility and at the same time generating revenues to support the Airport.

San Francisco International Airport is the fifth busiest airport in the United States in terms of total passengers and is the third largest origin and destination airport. In the calendar year ending December 31, 1990, 31,774,845 travelers passed through the Airport. This is a daily average of more than 87,054 passengers. San Francisco is served by over 55 airlines which reported 418,632 aircraft operations (landings and take-offs) in calendar year 1991. San Francisco is also ranked seventh in the United States in terms of air cargo tonnage handled.

The Airport has a direct economic impact of more than eight billion dollars annually, generating over 181,000 jobs throughout the Bay Area. This creates \$4.1 billion in personal income for Bay Area families. The Airport helps raise over \$1.1 billion in tax revenues each year for the nine Bay Area Counties and the State and Federal governments.

The Airport and the visitor industry it supports provide more entry-level and blue collar jobs for San Franciscans than any other industry. Of the 31,000 individuals working at the Airport, over 7,100 are San Francisco residents. An additional 43,000 jobs in San Francisco depend on visitors who arrive at the Airport. Altogether, San Francisco residents earn over \$540 million annually because of the Airport. Additionally, the City and County of San Francisco receives over \$96 million each year because of the Airport and the taxes resulting from visitor spending.

San Francisco International Airport received the Aviation Safety Institute award for the eleventh consecutive year in 1990. This award was given in recognition of the outstanding Crash/Fire/Rescue and Medical Preparedness Program.

The Airport completed its \$512 million Modernization and Renovation Program in 1988. This program included the construction of the North Terminal, the renovation of the International (Central) and South Terminal. The parking garage was also expanded. The terminal buildings are connected to the 6,700 space parking garage by six pedestrian tunnels and two pedestrian bridges. The amount of terminal space is 2.6 million square feet. The Airport now has 80 aircraft gates, 48 of which can serve wide-body jets.

The Airport is ready to implement a new Airport Master Plan to guide the Airport through the 1990's and into the twenty-first century. The Master Plan recognizes the vital role of the Airport in building San Francisco's ties to Pacific Rim nations and protecting the Bay Area's economy. The proposed Master Plan addresses the following key issues:

- Modernization of the existing air freight facilities.
- Relocation and development of commercial enterprises such as parking facilities and rental car agencies.
- Consolidation of airport administrative facilities.
- Improvements to existing facilities for support services such as airfield maintenance, engineering, crash/fire/rescue, and police/security.

The proposed Airport Master Plan evaluates existing facilities and analyzes the future demand versus the existing capacity. In addition, the Plan addresses the available alternatives and seeks optimum solutions to meet the demand for all facilities.

All of the Master Plan projects will be paid for without any taxpayer support. The Airport will issue revenue bonds, supported solely by Airport revenue, to fund new projects.

PERFORMANCE GOALS

- Increase Annual Service Payment to the City
- Two minute emergency response to calls for service
- Zero citations from the FAA for safety as security violations
- Increase revenue by 3%

MAJOR BUDGET ADJUSTMENTS

The Airport is financially self-supporting, receiving no taxpayer support. The Airport will contribute over \$15 million to the City's General Fund as an Annual Service Payment in Fiscal Year 1992/93. From a business perspective, this represents a \$21.43 dividend to each San Francisco resident.

The Airport's proposed Fiscal Year 1992/93 budget includes the following significant adjustments:

1. Child Care Subsidy - \$350,000

The Airport has agreed to support the development of a child care facility by San Mateo County. San Mateo County is trying to purchase the Sam Trans building for a child care center and the Airport has pledged sufficient funds to cover a specific numbers of slots for Airport employees. This is a \$200,000 increase from Fiscal Year 1991/92.

2. Home Insulation - \$891,600

The Airports Commission has approved a home insulation spending plan to fund the 20% local matching funds for the cities of Millbrae, Daly City, South San Francisco, and Pacifica. The Fiscal Year 1992-93 home insulation cost will be \$891,600. These funds are included in the Noise Monitoring Programmatic Budget.

3. Access Control Security System - \$366,500

A new security system was installed in Fiscal Year 1991/92 to comply with FAA security regulations and improve emergency response time and passenger safety. The surveillance system's video cameras and alarm technology will assist the Airport in meeting its goal of reducing emergency response time in the terminal areas to less than two minutes.

4. New Environmental Control Fees, Licenses & Permits - \$206,000

The State of California and local regulatory agencies have passed new legislation designed to protect the environment. As a result, the Airport must pay new fees and buy waste discharge permits. Permits are required to operate the sewage plant, domestic water system, smoke stacks, cooling towers and gasoline pumps. The State charges fees for the disposal of hazardous waste. San Mateo County charges for the storage and inspection toxic and hazardous materials. Environmental protection costs (fees and permits) will increase by \$206,000 in Fiscal Year 1992/93.

5. Transit and Visitor Information Program - \$170,000

The Ground Transportation Information Booths began operation in October, 1990. The booths are located on the arrival level of each terminal and provide Airport transit and visitor information. An additional \$170,000 has been included in the budget for this program, reflecting the large volume of passengers using this service.

6. Transit Systems Management Program - \$400,000

This budget request includes \$400,000 for the new Transit Systems Management Program. These funds will be used to encourage the use of public transportation by Airport employees, tenants and travelers. The goal is to reduce traffic congestion and minimize the environmental impact of the Airport on the surrounding Bay Area communities.

This program is effectively required by San Mateo County. Airport staff is analyzing possible ground transportation fee increases to (1) pay for this program and (2) discourage the use of private vehicles.

32 HETCH HETCHY

DEPARTMENT SUMMARY

DESCRIPTION

The Hetch Hetchy Project is a dual-purpose, multi-component hydroelectric system. It was created pursuant to the Raker Act of 1913 in which the United States Congress granted the City the rights to develop the Tuolumne River source.

Hetch Hetchy has two related but separate water systems and associated power components. The primary system diverts domestic water from the Hetch Hetchy Reservoir to the San Francisco Water Department through the Kirkwood and Moccasin Power plants. The second system diverts water from Lake Lloyd and Lake Eleanor to the Don Pedro Reservoir through the Holm Power Plant. Water impounded in the Don Pedro Reservoir satisfies the Raker Act entitlement of the Modesto and Turlock Irrigation Districts while allowing greater flexibility in use of domestic water from the Hetch Hetchy Reservoir.

Electric power generated at the three power plants is conveyed through approximately 165 miles of high voltage transmission lines to delivery points for the Modesto and Turlock Irrigation Districts, and through PG&E's system for transmission to San Francisco for municipal purposes. Power is also delivered to certain industrial customers under contractual agreements.

Hetch Hetchy Water and Power is comprised of four divisions:

- Project Operations: Located in Moccasin, this Division is responsible for collection, storage and delivery of domestic water to the San Francisco Water Department and for the generation and transmission of electric power. This Division has 117 positions.
- Transit/Motive Power: This Division is responsible for providing electric power for propulsion of Municipal Railway vehicles. This Division has 58 positions.
- General Administration: Provides overall management of the Department, including monitoring capital improvement projects, negotiating sales of Hetch Hetchy power and water for outside customers, and managing power scheduling and billing. This Division has 15 positions.
- Bureau of Light, Heat and Power: This Bureau is responsible for all aspects of City streetlighting and for billing the various City agencies for electricity and purchased natural gas. The Bureau operates administratively under Hetch Hetchy Water and Power. The Bureau's goals are to compute electric and gas bills for all City agencies, to compute all streetlighting charges accurately and on a timely basis, and to provide and maintain

adequate and energy-efficient lighting on City streets. This Bureau has 10 positions.

BUDGET ADJUSTMENTS

Hetch Hetchy's 1991-92 budget included the following adjustments:

- The substitution of one 1821 Management Information Systems Manager for an existing 7102 Maintenance and Repair Assistant Superintendent to maintain a number of computerized management and operating systems at Moccasin, resulting in a decrease.
- Salary increases to annualize two positions funded for nine months in 1990-91.
- Increase in fringe benefits for Health Services Subsidy and Administrative costs.
- Increase in contractual services for legal and technical consultants to defend San Francisco's water rights and legal issues dealing with the purchase of water and the FERC hearings.
- Increase for materials and supplies due to increased cost for fuel, and for maintenance supplies for Transit Power.
- Increases in worker's compensation and miscellaneous services of other departments.
- Increases for purchase of power and transmission and wheeling charges.
- A decrease in insurance and risk reduction premiums, and debt service requirement (principal and interest) of the 1961 Water Bonds.

The following baseline adjustments are proposed for 1992-93:

- An increase in Hetch Hetchy's general fund contribution from \$11M to \$17M
- A fund transfer to the Municipal Railway to pay for propulsion power.
- A reorganization in the Project Operations Division which results in a net reduction of four positions and a decrease in expenses.
- Four storekeepers positions are being reassigned from Purchasing to Hetch Hetchy.
- Two new positions are being added to the 1992-93 budget to deal with the department's safety requirements and the department's records management.

- Five position substitutions/upgrades.
- Increase in contractual services for legal and engineering services to assist the City in the Bay/Delta hearings and the proceedings before FERC.
- Annual increase for existing membership dues and an additional increase for proposed new professional society memberships for 1992-93.
- A decrease in funding for purchase of power and transmission and wheeling charges.
- A decrease in funding for the services of the PUC.

35 MUNICIPAL RAILWAY

DEPARTMENT SUMMARY

The San Francisco Municipal Railway (Muni), the first municipally-owned transit system in the United States is also one of the nation's most intensively used transit systems. Muni operates 78 transit lines and provides about 2.9 million annual revenue hours and 236 million trips annually. Muni provides over half of all mass transit rides in the Bay Area with less than one-third of all operating expenditures. Muni's goals are:

- To provide service to meet transit demand.
- To provide efficient transit service by allocating labor, capital fuel in a manner that will minimize the cost of operating transit service.
- To increase Muni's utility and effectiveness by increasing its convenience, dependability, safety and comfort.

The Municipal railway has three divisions: Transportation; Planning, Development, and Engineering; and Maintenance.

Major Budget Adjustments

The MUNI Railway budget request for 1992-93 is \$256.5 million. The major adjustments include the following changes:

- \$8.5 million increase for a fare package that raises adult cash fares from \$.85 to \$1.00, the fast pass from \$30 to \$33, elderly/handicapped fares from \$.15 to \$.25 and passes from \$4.50 to \$5.00, and youth from \$.25 to \$.35 and passes from \$4.50 to \$5.00. Cable car fares will increase from \$2.00 to \$3.00. An additional \$800,000 will be paid to MUNI by BART reflecting increased pass use on the BART system.
- A \$9.2 million reduction in state revenues.
- A paratransit program funded at \$3.6M.
- A one-time increase in Transit Impact Development Fee monies, valued at \$3 million.
- A one-time payment for propulsion power from Hetch Hetchy valued at \$2.8M.
- A \$1.3M increase for Workers Compensation claims.
- A reduction in staff, reflecting Prop A retirements. This was a city-wide program. MUNI's employees elected to take early retirement. A number of mandated positions have

been authorized for rehire, the remainder have been eliminated from the respective agencies' budget. This reduces personal services by \$6 million in FY 1992-93. Some vacant positions were reassigned for driver positions in order to keep the driver staff at the stated level in the MOU.

DIVISION SUMMARIES

TRANSPORTATION DIVISION

The Transportation Division determines the number of operators required to provide scheduled service, trains operators and manages all support services required to deliver scheduled service, and manages all operators and vehicles in Revenue Service. In 1991-92, the Transportation Division had 2,198 employees in two operating sections and two related units:

Surface Transportation: Oversees the provision and supervision of the five diesel and trolley coach service and operations. Handles complaints and commendations from the public about Muni.

Rail Transportation: Oversees the provision and supervision of light rail and cable car service and operations by the Metro and Washington/Mason Divisions.

Service Planning, Schedules and Data Services: Maintains and revises schedules, plans and develops projections for long-term service requirements, proposes and implements route and other service revisions, and collects and processes data necessary for these activities.

Safety, Training and Administrative Services: Conducts safety and training activities, handles personnel and finance needs, and provides media services, program analysis and system evaluation services for the division.

PLANNING, DEVELOPMENT & ENGINEERING

This division provides planning, development and engineering support to the other Muni divisions; serves as liaison with the PUC Bureaus; and plans and operates transportation services for the elderly and handicapped. In 1991-92, the division had 50 employees in nine sections:

Administrative Support: Office of the Muni General Manager; coordinates operations of the department.

Fleet Engineering: Supports vehicle maintenance by providing engineering services.

Strategic Planning: Performs operational analysis for capital projects and oversees the capital program.

Community Affairs: Provides information to the media and the

public, and operates Muni's employee awards programs.

Elderly and Handicapped Services: Oversees the operation of paratransit and fixed route service for the elderly and handicapped.

Systems Safety: Identifies potential safety hazards and develops strategies for their elimination.

Industrial Safety: Manages hazardous materials handling and industrial safety programs.

Graffiti Prevention: Coordinates graffiti prevention activities throughout the Muni, and between Muni and external agencies.

Plant Engineering: The Plant Engineering Division supports the maintenance of all of Muni's fixed facilities by providing engineering services. In 1991-92 the division had 20 budgeted employees within one section.

MAINTENANCE DIVISION

The Maintenance Division provides the required number of vehicles to produce scheduled service and maintains Muni's fixed facilities. In 1991-92 the division had 1,074 employees and is subdivided into seven sections which perform the following functions:

- Automotive Vehicle Maintenance: Maintains the 540 diesel-powered vehicles in the fleet.
- Trolley Maintenance: Maintains the 345 trolley buses in the fleet.
- LRV Maintenance: Maintains the 130 Light Rail Vehicles in the fleet.
- Power Signal & Electronics: Maintains traction power, electrical distribution systems, signaling systems and electronic support.
- Track and Structure: Maintains Muni's 46.5 miles of cable and street car tracks, nine subway stations and 1.5 million square feet of storage and maintenance facilities.
- Cable Machinery: Maintains the equipment and tracks of the cable car system.
- Administrative Services: The office of the Deputy General Manager and Chief Maintenance Officer. Includes personnel, training, materials management, finance and computer systems development.

36 DEPARTMENT OF PARKING AND TRAFFIC

DEPARTMENT SUMMARY

The Department of Parking and Traffic was created by charter amendment after San Francisco voters approved Proposition D in 1988. Charged with the management and operation of parking and traffic-related functions in the City and County of San Francisco, the Department of Parking and Traffic consists of six divisions; Administration, Enforcement, Traffic Engineering, Traffic Operations, the Parking Authority, and the Residential Parking Permit Program. The Department of Parking and Traffic goals are:

- To promote public safety.
- To develop programs which promote the City's transit first policy.
- To preserve the quality of life in the City's neighborhoods.
- To update and redefine the shared use of public roadways to ensure balance between the demands for both traffic and parking needs.
- To promote the economic viability of our commercial districts.
- To be responsive to requests for services.

In its second year of operation, the Department of Parking and Traffic has accomplished the following:

- New parking facilities at Polk/Bush and California/Steiner; Expansions approved for Ellis/O'Farrell and Fifth/Mission; S.F. General Hospital and Vallejo/Churchill have been approved for new construction. These projects will add 2,500 new off-street parking spaces.
- In response to neighborhood requests the Department changed the Mission/Bartlett facility from a metered to an attendant garage increasing usage and safety for patrons.
- Relocated the Residential Parking Permit Program from the Tax Collector's Office to 370 Grove Street and improved the collection of citations by requiring that all outstanding bails be paid prior to issuance of a permit.
- Created a new residential permit parking area in South of Market area and eliminated the backlog of requests by implementing 17 extensions to existing areas.

- Generated over \$3.6 million in revenues since February, 1991 by booting or towing 11,630 vehicles of persons with 10 or more outstanding parking citations.
- Eliminated a backlog of 900 abandoned vehicles and continue to remove over 5,000 abandoned vehicles per year from the City's streets.
- In response to the concerns of senior and disabled citizens, the Department attempted to deter the blocking of bus zones and disabled access ramps by supporting increased citation bails for these violations and actively towing vehicles parked in bus zones.
- The Department has also worked closely with the Department of Motor Vehicles to help eliminate the abuse of disabled driver placards.
- Coordinated demolition of the Embarcadero and Central Freeways and managed the traffic control during those projects.
- In addition to regular maintenance, replacement, and repair of street signs, the Sign division has installed 500 new Municipal Railway route signs and 200 large advance street name signs on major streets.
- The Signal division has initiated a Sales Tax funded program to upgrade pedestrian signal heads and obsolete signal controllers in locations throughout the City.
- In addition to its regular maintenance and repair duties the Parking Meter division has taken on the task of repairing damaged boots and has redesigned and remanufactured the meter collection canisters for more efficient use. They have also installed 635 new meters in the past year.

PERFORMANCE GOALS

- The Parking Authority will develop a comprehensive parking facilities maintenance plan for all garages and initiate an aggressive marketing program to increase patronage at all facilities.
- The Meter division will convert 19,000 parking meters to reflect a proposed rate increase and install 1,300 new meters.
- The Department will continue to evolve the Department's Speaker's bureau comprised of parking and traffic administrators, engineers and parking control supervisors to provide civic, merchant, and neighborhood groups with information on new programs and initiatives, and respond to neighborhood concerns.

- Evaluate current on-street regulations to develop an effective system to better manage the availability of curb space.
- With the purchase of 35 new boots, the Department will further improve the collection rate of outstanding citation bails.
- Improve traffic flow in the neighborhoods surrounding Candlestick Park.
- Implement improved signal timing for Market Street and surrounding areas.
- Install 17 additional "Talking Signs" at intersections to aid the visually impaired.
- Encourage development of Transit Management Plans for reduction of traffic in San Francisco.

The Department's major budget proposals for 1992-93 are:

- Reduce general fund expenditures by \$1.2 million.
- Increase revenues by \$10.2 million.
- Move a total of \$2.4 million in administrative costs from the General Fund to the Off Street Parking Fund (\$1.2 million labor costs and \$1.2 million in non-labor costs). This is being accomplished in the last 2 fiscal years.
- Eliminate 28 positions, or 5.5% of the work force.
- Add 3 engineering positions to be funded from project recovery.
- Add \$514,834 for labor and materials necessary to convert over 19,000 parking meters to higher rates.
- To effect better compliance with parking laws and regulations various citation bail amounts will be increased. This will also generate revenue of \$5.6 million.
- To provide more opportunity for curbside parking by encouraging meter turnover, the Department has proposed to increase meter rates from \$.30 per hour to \$.50 per hour and from \$.75 per hour to \$1.00 per hour. This will also generate revenue of \$1.5 million.
- Increase parking garage rates by 20%, generating revenues of \$2.3 million.
- Levy an administrative fee of \$20 on towed vehicles generating revenues of \$975,000.

- Establish an Abandoned Vehicle Abatement Authority allowing the County to impose a \$1.00 fee on each registered vehicle to recover the cost of removing abandoned vehicles. This will generate revenues of \$200,000 in the first year and \$400,000 in subsequent years.
- Increase the fee for processing applications for temporary street closing from \$40 to \$80. This will generate a total of \$13,200 (an increase of \$5,000) and will recover the cost of processing the applications.

DIVISION SUMMARIES

ADMINISTRATION

The Administration Division oversees the operation of the Department of Parking and Traffic and all of its divisions. Additional specific responsibilities include Policy and Planning, Fiscal services, contract management, Personnel and Payroll, Constituent Services, Public Education, and community affairs.

Enforcement: The Enforcement Division is responsible for traffic control, parking control and oversight of the City's towing and boot programs.

Traffic Control: The directing of motor vehicles at intersections to ensure the smooth flow of traffic and minimize congestion and gridlock on City streets.

Parking Control: Enforcement of all established parking rules and regulations in the City and County of San Francisco via the issuance of parking citations. Established regulations consist of colored curb zones, residential permits, parking meters and posted signs.

Towing and Boot Programs: Includes the towing of vehicles that are parked in violation of established no parking regulation, the removal of abandoned vehicles and immobilization and/or impoundment of vehicles for non-payment of parking citations.

TRAFFIC MANAGEMENT

The Traffic Engineering Division is responsible for improving traffic safety while maximizing effective use of street space.

Traffic Management: Oversees construction management, pavement marking, traffic flow improvement, traffic counts, claims litigation and regulations.

Traffic Design: Oversees the determination, modification and replacement of signals, major intersection design, traffic routing and temporary, street closures.

Traffic Planning: Oversees accident trend evaluation, transportation related capital planning, neighborhood evaluation, roadway design, major intersection design and pedestrian and bicycle movement.

TRAFFIC OPERATIONS

The Traffic Operations Division is responsible for installation and effective maintenance of all traffic associated equipment for the provision of safe and efficient traffic flow.

Sign Section: Oversees the installation and maintenance of approximately 130,000 traffic signs within the City.

Signal Section: Oversees the effective maintenance of traffic signals which include 980 signalized intersections and associated equipment on a twenty-four (24) hour basis.

Parking Meter Section: Oversees the installation, maintenance, inspection and servicing of over 20,000 parking meters to maximize operational meters and revenue.

Curb Painting Section: Oversees the painting of over 10,000 regulatory colored curb zones and pavement markings.

PARKING AUTHORITY

The Parking Authority is charged with the development of new off-street parking facilities, and the management of existing off-street facilities which include 24 neighborhood metered areas, 6 attended garages and 3 attended surface parking areas. The Parking Authority also oversees the management of four City owned garages operated by non-profit corporations and coordinates the implementation of Proposition F, which enables the City of San Francisco to build parking lots or garages in areas identified in a 1989 neighborhood parking study.

RESIDENTIAL PARKING PERMIT PROGRAM

The Residential Permit Parking Program was created in 1976 to address the adverse effects of long parking of vehicles in residential areas by non-residents and with the intent of encouraging use of public transit. The program currently issues 80,000 permits per year for 23 preferential parking areas. Temporary, commercial, and contractor's permits are also available.

37 BOARD OF PERMIT APPEALS

DEPARTMENT SUMMARY

The Board of Permit Appeals is a five-member administrative review body appointed by the Mayor to serve as a "people's court" to hear appeals on the suspension, revocation, issuance, penalties, and conditions of permits of all departments and variances and determinations of the Zoning Administrator and certain decisions of the Planning Commission. The Board conducts public hearings 34 Wednesday nights a year in Room 282, City Hall. The Board is served by an executive director and four administrative and clerical employees. The Board's office is Room 154-A, City Hall. The Board makes 300 to 400 decisions a year, some of which are appealed to Superior Court by appellants or permit holders. The Board's decision is the final City action on a permit matter.

The Board conducts its public hearings at meetings held Wednesday nights beginning at 5:00 p.m. in room 282, City Hall in order to accommodate the working public unable to attend hearings during regular business hours.

PERFORMANCE GOALS

The Board's goal is to provide a fair, efficient forum for Permit Appeals. It is always the Board's intention to schedule appeal hearings as soon as possible and to issue decisions as soon as possible after hearing so as to cause minimal delay for the parties and departments involved.

MAJOR BUDGET ADJUSTMENTS

The department will again submit a basic budget similar to last year's but reduced by approximately \$24,000 from FY91-92 reflecting decreases in various expenditures. There are no major adjustments.

.....

39 PORT COMMISSION

DEPARTMENTAL SUMMARY

Strategic Plan

Two years ago the Port completed its first Strategic Plan, formally stating its mission and goals. The mission and goals define the Port's direction for the coming years.

- Mission: Responsible For Creating A Balanced And Diverse Waterfront Everyone Can Be Proud Of, Mindful Of Tradition While Looking Toward Tomorrow
- Goals: Committed To Attracting Increased Shipping And International Trade
- Responsive To Customers And The Public
- Committed To The Development of Water-Dependent Industries
- Providing Public Access And Recreation
- Achieving Integrated And Well-Planned Development
- Financially Sound And Resourceful
- Enhancing Organizational Efficiency, Effectiveness, And Employee Participation
- Providing Economic Benefits

Reorganization

As a logical follow-up to the development of the mission and goals, during the past year, the Port conducted a comprehensive organizational analysis of its structure. This was necessary because the Port's organization structure could not effectively implement its mission and goals and because it has not kept pace with the many changes to the maritime industry. The transition to the new organizational structure should be completed by the beginning of the 1992/93 fiscal year.

DIVISION SUMMARIES

CARGO SERVICES

The Port's Cargo Services Division will be responsible for promoting and managing all cargo-related services, and serving cargo-related customers and potential customers (including shipping lines, shippers, and consignees). Primary responsibilities are directly related to cargo and include: sales, marketing, and

to cargo). This means providing services to current and potential non-cargo tenants, including retail, food, office, industrial, and maritime (fishing, ferries, ship repair, cruise ships, etc.). Primary responsibilities will include: leasing, marketing, and promotions; customer service; billing and collection of past-due accounts; management and maintenance of facilities and public areas; inspections; engineering/permitting; garbage pickup and street cleaning; and developing and updating property maps.

Major Performance Goals

- Develop cruise marketing effort to increase the number of repositioning cruises by 10%; homeport a cruise line with a winter itinerary in San Francisco; and implement the SeaFood Center Project at Pier-45.
- Increase rental revenues by 8% over current (September, 1991) performance by aggressively pursuing new leasing to generate at least \$260,000 in new annual revenues; renegotiating existing leases to update them as to terms and rates; negotiating a development agreement with the successful bidder for Piers 30-32; increasing percentage rents from making scheduled rent adjustments and negotiating new leases at higher rates in place of expiring leases; enhancing the Property Management Systems; continuing free, public waterfront tours; producing two major special events that promote port industries and draw the public out to the waterfront; and implementing a Ship Repair Survival Plan.

Major Budget Adjustments

The 1991/92 budget contained the following major budget adjustments:

- Increase of \$133,330 to fund SFPD officer patrols on Port property to provide needed security for tenants, visitors and Port property.
- Add revenues and expenditures for the Hyde Street Harbor facility. Expenditures include the addition of three positions, start-up equipment and supplies and miscellaneous operating costs totaling \$79,300.
- Increase of \$17,950 to improve security and janitorial services for Fisherman's Wharf.
- Increase of \$12,000 for janitorial services at the new public recreation facility.
- Increase Professional Services, Prop. J budget by \$62,500. This reflects not only an anticipated cost-of-living increase in existing janitorial and security contracts when they are rebid, but also the addition to the service area of the Pier-50 office building.

- Reduce power and water by \$134,400, to reflect anticipated Port power customer switchovers to PG&E-direct billing amounting to 15% of our power revenues.

The 1992/93 budget proposal contains the following major budget adjustments:

- Increase the services of the Environmental Control Officers by \$5,500 to help enforce the street cleanliness and trash control provisions of the San Francisco Police Code.
- Add a new program for the purpose of gaining more market share in the Ship Repair industry. The \$25,000 is for printing industries inserts, artwork for industry periodicals, mass mailings, and for sales and support activities.
- Implement a cruise marketing program that will halt further erosion of the Ports current business and aid in increasing our market share of the West Coast cruise market (\$10,000).
- Add \$7,000 for promotion of the Port's waterfront. With the expected six months of operation of the Pier-45 SeaFood Center, \$35,000 has been budgeted for a new program for Janitorial and Security services.
- Decrease of \$38,000 in the janitorial contract.

PLANNING AND COMMUNITY AFFAIRS

The Planning and Community Affairs Division will be responsible for developing and implementing an integrated, well planned, master land use plan. In accomplishing this, the Division will seek to serve the entire local community, including special interest groups, civic organizations, developers, and the general public. Primary responsibilities include: land use planning; community relations; regulatory relations and permitting; development project management and inspection; environmental project management; hazardous waste control and disposal; and asbestos regulations compliance program.

Major Performance Goals

Planning and Development Services

- Continue the Port's major planning effort to produce a Waterfront Land Use Plan that will govern the future development and use of all Port property.
- Complete a draft Waterfront Land Use Plan and commence environmental evaluation of the Plan.
- Complete construction on Phase II (soils compaction) of the Pier 45 Earthquake Repair Project, complete construction in

Sheds A and B (first part of Phase III of the Pier 45 Earthquake Repair Project) and begin construction in Sheds C and D (second part of Phase III of the Pier 45 Earthquake Repair Project).

- Conduct further environmental review for the Seafood Center Project (including further development of Pier 45 and the Hyde Street Harbor).
- Monitor and facilitate developer's preparation of an Environmental Impact Report (EIR) for the Scandinavia Center Project in accordance with the Master Schedule set forth in the Development Memorandum.
- Develop final architectural and engineering plans for Phase II of the North Ferry Terminal at Pier 1/2.
- Facilitate Port approval of final design and construction of the South segment of the Waterfront Transportation Projects and the MUNI Metro Turnback.
- Continue to assist other City Departments in the preparation of reuse plans for the Embarcadero Plaza area and for the Hunter's Point Naval Shipyard.

Regulatory and Environmental Services

- Complete the submittal for all Amended Report of Waste Discharge Documents (AROWD) to the RWQCB. (Closure Plans for the three landfills)
- Revise the groundwater monitoring program and amend the AROWD'S that regulate the program.
- Complete the Mobile Oil site remediation on Jefferson Street.
- Complete the proposal for a wetlands at Pier 98.
- Develop and implement a program to assist all Port facilities and tenants in complying with federal and state regulations involving storm water runoff.

Major Budget Adjustments

The 1991/92 budget proposal included the following major budget adjustments:

- \$240,000 for planning consultants to assist the Port in developing a comprehensive land use plan.
- \$100,000 for groundwater monitoring of three dumpsite closures required by the Regional Water Quality Control Board.
- \$60,000 for the inspection, repair and maintenance of asbestos

materials.

The 1992/93 budget proposal includes the following major budget adjustments:

- \$101,000 increase for continuation of the required groundwater monitoring program at Pier 70, 94 and 98.
- \$89,011 increase primarily for a work order to the Department of City Planning for a Planner IV to staff the ongoing waterfront land use planning process full time, as required by Proposition H.
- \$67,500 increase for a work order to the Department of Public Works for Asbestos Abatement Projects.

INTERNAL SERVICES

The Internal Services Division is responsible for providing required services to other divisions and to port employees. Primary areas of responsibility include the following functions, critical to the overall operational effectiveness of the Port: materials management; management information services; payroll and personnel administration; accounting services; labor negotiation support; maintenance of Port infrastructure and public areas.

Major Performance Goals

- Rehabilitate shop machinery, wheel-mounted equipment, and piledriver machinery.
- Document all costs for earthquake-related repairs completed by the Port, for reimbursement by FEMA and appropriate grant entity. Note that this is contingent upon the approval of the Principal Accountant position.
- Develop a data base that will capture real-time expenditures so that budgeted funds may be efficiently and effectively allocated.
- Establish a proposed capital expenditure budget to replace worn-out and obsolete equipment.
- Establish a proposed capital expenditure budget to effect major repairs in piers.
- Develop computer simulation models to assist in predicting changes in maintenance requirements and to determine optimal solutions to maintenance problems.
- Implement an employee communications program using vehicles such as an employee newsletter and presentations on current Port activities and other subjects of interest to employees.

- Train staff to implement the collective bargaining provisions of Prop.B and ensure issues related to the Port's unrepresented classes, are addressed.
- Finalize the recruitment and attending exam process for seven Port classifications.
- Increase employees' understanding of Personnel policies and procedures by issuing a revised manual to all Port employees.
- Train all Port management staff to help facilitate the implementation of the Port's Affirmative Action Program.
- Establish and implement a progressive discipline program.

Major Budget Adjustments

The 1991/92 budget contained the following major budget adjustments:

- Purchase of DEC mini computer and Oracle Financials. The Port will be converting its financial systems applications from its current Microdata mini computer.

The 1992/93 budget contains the following major budget adjustments:

- Maintain status quo relative to the three Account Clerk positions and the Principal Accountant position, so as to affirm our commitment to our labor agreement on the former and to show good faith on the latter, which is still an issue under discussion with the union for a total of \$167,680 in salaries, overtime and fringes.
- Continue post-implementation activities relative to the Oracle system (\$67,065). This constitutes maintenance agreements and training for Port systems personnel - the outcome of which brings the Port closer to the integration and assimilation of its systems, into the city-wide computer network.
- Increase the number of phone lines and budget phone charges using the most recent cost data, an additional \$27,189 has been budgeted.

EXECUTIVE

The Port's Executive Division includes the Executive Director, the Special Assistant to the Executive Director, the Legislative Affairs and Communications Office, Finance and the Maintenance Coordinator. This division is responsible for the overall direction and effective management of the Port.

Major Performance Goals

- Continue to pursue public funding for completion of

Fisherman's Wharf Seafood Center, public access areas and rail bridge.

- Produce informational publications for port tenants and the local community to cover topics that Wharfside can not cover.
- Develop a financial planning model including five year operating and capital plans. This will allow the Port to predict operating results and predict the ability to finance capital projects. With this information, the Port can identify revenue targets necessary to support reasonable growth of the operating budget and financing the capital program.
- Develop a financing plan to fund the capital plan. The capital plan will be segmented into groups of projects by priority. The timing and amount of financing will be scheduled accordingly.

Major Budget Adjustments

The 1991/92 budget contained the following major budget adjustments:

- City-wide overhead increased by \$108,076.
- Insurance budget decreased by \$250,000.
- Debt service costs decreased by \$144,597.

The 1992/93 budget proposal contains the following major budget adjustments:

- Decrease debt service costs by \$80,600.
- Transfer the advertising budget from the Executive Division to Cargo Services (\$90,190).
- Increase City Attorney budget by \$139,718, including \$125,374 for an additional attorney 75% time to assist with the development of the Port's Waterfront Land-Use Plan.

40 PUBLIC UTILITIES COMMISSION

DEPARTMENT SUMMARY

DESCRIPTION

The Public Utilities Commission is comprised of six bureaus that provide administrative and technical support to the Public Utilities Commission's three operating departments: the Water Department, Hetch Hetchy Water and Power, and the Municipal Railway. The bureaus' budgets are funded through allocations from each of the departments. The six bureaus are: (1) General Manager, (2) Finance, (3) Management Information Systems, (4) Utilities Engineering, (5) Energy Conservation, and (6) Personnel and Training.

BUDGET ADJUSTMENTS

The combined bureaus' 1991-92 budget decreased by a net of \$.5 million to support budgetary constraints. Adjustments included the following:

- The reduction of four positions.
- The annualization of three positions needed to support the Municipal Railway's new farebox program.
- An upward substitution resulting in a net reduction of one position.
- The reassignment of one planner position to the Municipal Railway.

Adjustments for 1992-93 result in a net reduction of \$1.9 million and include the following:

- The transition of one temporary position to permanent status to support Municipal Railway's new fareboxes.
- Two downward position substitutions.
- Elimination of three positions and a reduction in salary savings to support budgetary constraints.
- The reduction of funding for professional and contractual services, services of the City Attorney and funding for removal of hazardous waste.
- Elimination of 12 positions as a result of early retirement (Proposition A).

GENERAL MANAGER

PROGRAM DESCRIPTION

The PUC General Manager's budget includes six units and 38 positions: Health and Safety, Security and Protective Services, Bureau Services, Contract Compliance, General Manager/Administration, and Management Efficiency and Productivity. These units provide the following services:

Health & Safety: Training of PUC employees and ensuring compliance with Cal-OSHA safety regulations and EPA regulations for handling hazardous materials and disposing of hazardous waste.

Security and Protective Services: Operating security systems for all PUC facilities.

Bureau Services: Printing, and auxiliary support services.

Contract Compliance: Monitoring and certifying contracts and administering and enforcing applicable federal, state and local laws and regulations which mandate the participation of DBE's MBE's WBE's and LBE's in the contracting process.

General Manager/Administration: Overseeing the administration of and providing staff support services for the Public Utilities Commission.

Management Efficiency and Productivity: Conducting high-level management reviews, analyses, and efficiency and effectiveness studies of PUC policies, programs and activities.

BUDGET ADJUSTMENTS

The 1991-92 budget included the following adjustments:

- Health and Safety: Increased funding to adjust the salary of one position, annualize contractual services for garage, and property rental and vehicle maintenance.
- Bureau Services: Increased funding for materials and supplies.
- General Manager/Administration: Reduce worker's compensation based on the estimates provided by the Retirement System.

The following baseline adjustments are proposed for 1992-93.

- Health & Safety: Eliminate one position through early retirement (Proposition A).
- Security & Protective Services: Reduce funding for security services for Muni facilities.
- Bureau Services: Increase salary savings and reduce funding for printing.

- General Manager/Administration: Eliminate one position -- early retirement.
- A total of 4 vacant positions have been reduced from this Bureau.

FINANCE

PROGRAM DESCRIPTION

The Bureau of Finance consist of four units: Fund Accounting; Enterprise Accounting, Budgets, Analysis and Grants; and Claims. The Fund Accounting unit is responsible for appropriations accounting, payroll and fare revenue collection and processing. The Enterprise Accounting unit is responsible for general ledger accounting, project and grant accounting, external reporting, internal auditing, and the administration of the Transit Impact Development Fee. The Budgets, Analysis and Grants unit is responsible for preparing the annual operating and capital budgets, administering project and grant expenditures, preparing grant requests, and analyses of budget variances. The Claims unit is responsible for investigating, processing and settlement of all claims filed against the three operating departments. The Bureau's goal is to support the PUC departments by processing financial transactions, maintaining expenditure and revenue controls, publishing accurate, timely and useful financial information and preparing performance reports and the timely processing and settlement of claims.

BUDGET ADJUSTMENTS

The 1991-92 budget included the following adjustments:

- The transition of two temporary positions to permanent status to support Municipal Railway's new fareboxes.
- Increase fringe benefits to adjust rates for health services subsidy and administrative cost.
- Increase work order funding for the Purchaser and Controller to cover salary adjustments.
- The reassignment of one position to the Municipal Railway to reflect where the position actually reports.

The following baseline budget adjustments are proposed for 1992-93:

- Transition one temporary position to permanent status to support Muni's new fareboxes.
- Eliminate five positions due to early retirements.
- Eliminate nine vacant positions, and reduce funding for professional services, materials and supplies and funding for

services of the City Attorney.

- Increase funding to cover the annual increase for the Municipal Railway transfer contract and funding for a non-counterfeit fast pass.

MANAGEMENT INFORMATION SYSTEMS

PROGRAM DESCRIPTION

The Bureau of Management Information Systems (BMIS) provides systems analysis and data processing support to the PUC. The Bureau consists of four units: Customer Services (office and business systems, financial and personnel systems), Computer Operations, Technical Services, and Application Development Services. Customer Services is responsible for utilization support for all PUC. Computer Operations is responsible for the operation of computer equipment and the teleprocessing network system. Technical Services is responsible for system operating software and the analyses of automated systems. Application Development Service is responsible for all system development and maintenance. The Bureau's goals include developing new systems to meet the demands of PUC departments and upgrading existing applications as they become technically inferior; providing reliable computer resources to BMIS users; installing and maintaining technical systems software; creating a more stable and reliable computer operation; and providing data processing service, direction, coordination, and administration.

BUDGET ADJUSTMENTS

The 1991-92 budget included the following adjustments:

- Reduction of two positions to support budgetary constraints.
- The transition of one temporary position to permanent status to support the Municipal Railway's new fareboxes.
- An upward substitution resulting in a net reduction of one position.
- Increased funding in rental of property to reflect the estimated contact renewal increase.
- Increased funding to cover premium costs for insurance coverage.

The following baseline adjustments are proposed for 1992-93.

- Two downward substitutions to reflect clerical and data processing needs.
- Eliminate five positions due to early retirements.

- Eliminate one vacant position.

UTILITIES ENGINEERING

PROGRAM DESCRIPTION

The Utilities Engineering Bureau (UEB) provides project management, engineering design, and construction engineering services to PUC departments and bureaus. The Bureau has four units: Project Management, Engineering Services, Construction Engineering, and Administration and Planning. The Bureau's goal is to complete major capital projects on schedule and within budget.

BUDGET ADJUSTMENTS

The 1991-92 budget included the following adjustments:

- Operating Budget : There were no budget adjustments.
- Non-Personnel Expenditure Fund: Increased funding for equipment maintenance, contractual services and training. This increase is off-set through reductions in one-time funding related to the office expansion.
- Personnel Fund: An increase in salary savings.

The following baseline adjustments are proposed for 1992-93:

- Operating Budget: A reduction in departmental overhead to reflect reductions in UEB's project overhead charges to Muni, Water and Hetch Hetchy.
- Non-Personnel Expenditures Fund: Increased funding for "as needed" contracts, and copy machine rental to reflect actual costs. New funding to purchase a Local Area Network (LAN) and computers. Increased funding for DP/WP maintenance, travel, light heat and power which is offset through a reduction of property rental funding..
- Personnel Fund: One position substitution needed to provide UEB with knowledge and skills to address environmental issues. Elimination of five positions -- early retirements.

ENERGY CONSERVATION

PROGRAM DESCRIPTION

The Bureau of Energy Conservation (BEC) is responsible for achieving efficient use of energy for all City facilities through the implementation of various energy conservation programs. The

Bureau's goals include reducing the rate of growth of energy usage in City operations, controlling increases in energy expenditures, generating additional revenue for Hetch Hetchy through increased capacity for resale, and supporting private sector energy use reduction programs. The Bureau is funded from Hetchy revenues and public and private grants.

BUDGET ADJUSTMENTS

The 1991-92 budget included the following adjustments:

- Increased funding in contractual services to reflect cost increases.
- Increased telephone funding to reflect current usage.
- Equipment funding to replace an existing computer.
- Increased funding for computer training of two employees.

The following baseline adjustment is proposed for 1992-93:

- Increase funding to adjust for a step increase.

PERSONNEL AND TRAINING

PROGRAM DESCRIPTION

The Bureau of Personnel and Training includes the following units: Operations, Affirmative Action, Examinations, Discipline, and Administration. The Operations unit is responsible for position control, certification, classification, and wage and salary assessment. The Affirmative Action unit, processes and investigates complaints for alleged employment discrimination filled by PUC employees or employment applicants. The Examinations unit maintains eligibility lists of qualified candidates for employment. The Discipline unit processes disciplinary actions for dismissals, terminations, resignations, special medical evaluations, arbitration and employee grievances. The Administration unit oversees the administration and staffing for Personnel and Training, discipline and performance appraisal. Other services include the processing and maintenance of a computerized system that support Muni's employees and dependents passes, employee performance appraisals, processing leave request and requisitions, and preparing non-civil service (NCS) employment announcements. The Bureau's goal is to respond to the human resource and training needs of the PUC by providing timely responses to staffing, disciplinary actions, and recruitment requests, and to conduct training courses that are skills-specific.

BUDGET ADJUSTMENTS

The 1991-92 budget included the following adjustments:

- Increased contractual services funding for office equipment

rental and maintenance and garage rental.

- Increased funding to cover the anticipated rental of property increase.
- Increased funding for electricity and gas based on current usage.
- The reduction of two positions to support budgetary constraints.

The following baseline adjustment is proposed for 1992-93:

- An increase in salary savings to correct a clerical error in the 1991-92 appropriation.
- Eliminate one vacant position.

47 WATER DEPARTMENT

DEPARTMENT SUMMARY

DESCRIPTION

The San Francisco Water Department provides water to residential, commercial and industrial consumers in the San Francisco Bay region through direct deliveries to City customer and wholesale deliveries to suburban agencies. Approximately 60 percent of the water is supplied to 30 wholesale agencies in Alameda, Santa Clara and San Mateo Counties.

The Water Department's goals are to deliver safe, potable water in adequate quantities to all customers; to respond promptly to emergency situations; to comply with applicable State and Federal regulations for water quality and public safety; to equitably charge and collect for water services; to provide for the needs of the present and future through continuous maintenance, planning and improvement; and to conduct all department operations efficiently at reasonable cost.

The Water Department is composed of five operating divisions:

City Distribution Division: Directs maintenance and operational activities to assure adequate water supply for domestic and firefighting purposes within San Francisco. This Division has 200 positions.

Water Supply and Treatment Division: Formerly the Suburban Division, it is responsible for the management of local reservoirs, watershed management and maintenance of suburban transmission and delivery facilities. This Division has 147 positions.

Customer Service Division: Provides customer relations services, billing and collection functions. This Division has 98 positions.

Water Quality Division: Monitors water quality to insure conformance with all State and Federal standards, rules and regulations and is responsible for water treatment operations, laboratory, cross-connection control and water quality engineering functions. This Division has 72 positions.

Administration Division: Provides planning, policy direction and overall management for the Department. This Division has 15 positions.

BUDGET ADJUSTMENTS

The Water Department's 1991-92 budget included the following adjustments:

- Increased funding in fixed charges and contractual services

for: projected property tax increases for Water Department lands in San Mateo, Alameda and Santa Clara Counties; new services fees assessment by the State Department of Health Services; increased membership dues and hazardous waste removal permit fees; price increases in fuels and lubricants; rental of Post Office boxes for deposits of customers; water bill payments; projected cost increases to update the Sanborn Maps; and postal increase.

- Funding to cover debt repayment on general obligation bonds, the 1987 and the 1991 series bonds.
- Funding to annualize one A047 Water Supply Engineer position that was partially funded in the 1990-91 budget.
- Funding to cover projected increases in the cost of light, heat and power.
- Funding to adequately fund ISD for the maintenance of an automated interface system used by the City to track delinquent accounts.
- An increase to cover the Department's share of total costs for baseline programs for the PUC Bureaus as determined through the allocation model.
- An increase in the Hetchy assessment to reflect the increased Hetch Hetchy capital program for water-specific projects.
- Funding to cover cost increases for Health Subsidy and Administrative Services.
- An increase in the City's overhead charges (COWCAP).
- Increased funding for the Retirement System's Workers Compensation.
- Funding for the Department of Public Health to cover the costs of underground tank testing.

The following baseline budget adjustments are proposed for 1992-93:

- Increase funding for eight positions to support the Comprehensive Environmental Program, the Reclaimed Water Development Program, Safety Inspection Program, and the Prestressed Concrete Cylinder Pipeline Inspection Program.
- Six Storekeeper positions are being reassigned from the Purchaser to the Water Department at no additional cost to the department.
- An increase in the City's overhead charges (COWCAP).
- Increase in other contractual services to fund the second phase of the Records Management Program, rent laboratory

equipment needed to analyze organic and other contaminants in drinking water, rent pagers for the emergency communication system, and for janitorial services.

- Increase in funding for Recreation and Park to support a site characterization study at Lake Merced.
- Increase in funding for new professional society memberships.
- Increase to the Retirement System for workers compensation.
- Increase to fund the cost of light, heat and power.
- Increase in funding to cover the debt service on the 1987 and 1991 revenue bonds.
- A decrease in funding for the water conservation program.
- A decrease in the Department's administrative costs for PUC services.

49 BUREAU OF LIGHT, HEAT AND POWER

DEPARTMENT SUMMARY

DESCRIPTION

The Bureau of Light, Heat and Power is responsible for all aspects of City streetlighting and for billing the various City agencies for electricity and purchased natural gas. The Bureau operates administratively under Hetch Hetchy Water and Power. The Bureau's goals are to compute electric gas bills for all City agencies, to compute all streetlighting charges accurately and on a timely basis, and to provide and maintain adequate and energy efficient lighting on City streets. The Bureau has 10 positions.

BUDGET ADJUSTMENTS

The Bureau of Light, Heat and Power's 1991-92 budget includes the following adjustments:

- A 15% increase in rates for electricity and 17% for natural gas.
- An increase in funds for telephone services connecting the Bureau's teletype machine directly to the underground Service Alert System.
- An increase in equipment for the teletype machine and computer.

The following budget adjustments are proposed for 1992-93:

- A position substitution needed to provide supervisory staff for maintenance and repairs of City-owned streetlights.
- An increase in contractual services to fund the contract for maintenance of PG&E-owned streetlights and City-owned streetlights.
- An increase for gas and electricity for City departments based on projected increases in rates for electricity and increases in consumption.

.....

75 ELECTRICITY AND COMMUNICATIONS

DEPARTMENT SUMMARY

The department of Electricity and Telecommunications provides telephone services to all City agencies as well as necessary radio communications, fire alarm and emergency communications service. Additionally, the department is responsible for the selection of telecommunications services. The departments' goals are:

- Minimize and stabilize telecommunications costs
- Provide quality telecommunications service to the City's employees that is reliable, responsive and convenient to use
- Maximize personnel productivity by using current telecommunications technology
- Support the increase in demand for telecommunications systems, encompassing voice and data.
- Enhance computer connectivity by providing the capability to easily connect computer-related equipment.

Major Budget Adjustments

Included in fiscal year 1991-92, the following adjustments were made.

- \$280,597 for additional telephone conversion consistent with CCSF telephone conversion project.
- Reduced \$16,000 in monthly PacBell expense for trunks and usage for centrex equipment located in City Hall.
- Reduced \$16,000 in communications parts and materials for additional new equipment to be serviced.

In fiscal Year 1992-93 the following adjustments are proposed.

- Eliminate 4 positions from Prop A early retirement.
- Increase for permit fees to comply with the San Francisco Hazardous Materials and Disclosure Ordinance.
- Addition of a contract billing analyst.
- Addition of a Telecommunications Network Engineer which

will be hired mid-year.

- Additional cable splicers and radio technicians. These individuals will do work previously performed by AT&T or DPW at a lower cost than those providers. Their salaries are recovered from work order activity.

DIVISION SUMMARIES

Telecommunications Division

The Telecommunications Division coordinates the implementation of new and replacement City Telephone systems. Once a system is in place, the division assumes operations responsibility. This includes the maintenance of stations within the network, preparing and updating the city directory, physical inventory and hardware design. They also identify opportunities in emerging voice-related technologies.

Public Safety Communications Division

This division maintains the City's fire alarm system connecting fire boxes, public schools and other public buildings. It maintains and operates the Central Fire Alarm Station 24 hours. This includes maintenance and service of the computer-assisted fire alarm dispatch system. This system provides voice announcement and hard copy at the various fire and pumping stations. The Division maintains and repairs the Police call-box and telephone system, Mayor's emergency telephone system and an air raid siren system.

Radio Electronic Communications Division

The Division provides expertise and services by designing, licensing, procuring, inspecting and servicing City radio electronic communications systems and equipment. The majority of the divisions work is related to public safety - Police, Sheriff, Fire, Public Health, and Public Works.

Administration and Financial Administration Support Services

The Administration and Financial Administration Support Services provides accounting, budgeting, purchasing and personnel support to the department.

90 DEPARTMENT OF PUBLIC WORKS

DEPARTMENT SUMMARY

The Department of Public Works provides for the clean, safe and efficient operation of the streets and sewerage system, effective maintenance of City-owned public buildings and structures, preservation of health and safety in private buildings, and the proper design and construction of City-owned public facilities.

The Department is organized into eleven operating bureaus with a total staff of 1902. Major budget adjustments are described within bureau descriptions below.

DIVISION SUMMARIES

GENERAL ADMINISTRATION

General Administration comprises:

- The Director of Public Works and his direct staff, including the department's Safety and Claims office.
- Deputy Director for Financial Management and Administration who is responsible for Payroll, Accounting, Personnel, Budget, Contract Administration, and Computer Services.
- Deputy Director for Engineering who is responsible for the bureaus of Architecture, Engineering, and Construction Management.
- Deputy Director for operations who is responsible for the bureaus of Building Repair, Street Cleaning and Urban Forestry, Street and Sewer Repair, and Water Pollution Control.
- Deputy Director for Public Services who is responsible for the bureaus of Environmental Regulation & Management, Building Inspection, and Subdivision, Surveys and Mapping.

MAJOR BUDGET ADJUSTMENTS:

In 1991-92, the budget contained the following service adjustments:

- As part of the Departments reorganization, the Claims Division was reassigned from the General Fund budget of the Bureau of Engineering to General Administration (\$158,661).
- As part of the Departments reorganization, four positions were reassigned from the Clean Water Program to General Administration to assist the Executive Director, Clean Water

Program in the management of the Bureau of Engineering and the two new bureaus of Construction Management and Environmental Regulation & Management (\$243,608).

- As part of the Departments reorganization, two positions were reassigned from the Clean Water Program to General Administration to consolidate all financial management positions in the office of Financial Management and Administration (\$91,167).
- A manager position was established through the substitution process, to oversee the office of Health and Safety (\$64,806).
- All of the above changes are the result of position reassignments/and or substitutions. No new positions were added to the department's position count.

In 1992-93, the following budget adjustments are proposed within the baseline budget:

- The addition of six new positions; one new Health Educator to assist with the DPW health and Safety training programs, one accountant position for bond and grant construction work, and 3 positions in the Personnel office to provide timely and accurate response to our personnel-related actions, and the consequent maintenance of files and records. One position for expanded department wide training. (\$180,000) .

BUREAU OF ARCHITECTURE

ARCHITECTURAL CONSULTATION SERVICES

This program provides consultation services to the Mayor's office, Board of Supervisors and other City departments.

MAJOR BUDGET ADJUSTMENTS

In 1991-92, there were no major budget adjustments.

For 1992-93, it is proposed that the General Fund Architectural Consultation Services budget be eliminated and absorbed by the Bureau's Support Service budget. (\$62,000)

INTERDEPARTMENTAL SERVICES

This program provides architectural services to funded projects and typically includes the following activities:

- A. Conferences
- B. Establishing budgets and schedules
- C. Space planning
- D. Defining client requirements
- E. Investigating existing site conditions
- F. Selecting consultants
- G. Negotiating consultant contracts
- H. Design
- I. Coordinating Engineering Services
- J. obtaining Review Agency approvals
- K. Estimating project costs
- L. Various types of studies
- M. Advertising construction bids
- N. Evaluating bids, alternates and unit prices
- o. Awarding contracts
- P. Reviewing submittals
- Q. Selecting materials and colors
- R. Clarifying construction documents
- S. Making progress payments
- T. Initiating pertinent legal documents
- U. Inspecting the construction
- V. Closing out the project
- W. Following up on guarantee/warranty
- X. Other supporting services as required

MAJOR BUDGET ADJUSTMENTS

In 1991-92, the budget contained the following major service adjustments:

- Increase of \$982,452 in salaries for twenty-five (25) additional positions to work on Earthquake Safety and Mental Health Facility Bond Projects.

In 1992-93, there are no major service level adjustments proposed.

BUREAU OF BUILDING INSPECTION

The Bureau of Building Inspection provides enforcement and implementation of laws regulating use and occupancy, location and maintenance of buildings. This is done through plan review and approval for code compliance, permit processing and issuance and inspection of work in progress. The Bureau also responds to housing code complaints and follows through to ensure correction of code violations.

BUILDING INSPECTION SERVICES

The Bureau of Building Inspection is funded by the Special Fund which consists of revenues collected from permit activities, code enforcement activities and, hotel and apartment license fees.

MAJOR BUDGET ADJUSTMENT:

In 1991-92, the Bureau of Building Inspection budget included the following items:

- Fee increase for anticipated salary increases and to defray increased costs.
- Continued non-labor costs for the rental of property to accommodate the Construction Services Center, and overall improvement to the BBI Computer System as part of the Three Year Computer Plan.

In 1992-93, there are no major service level adjustments proposed.

- There is a fee increase for anticipated salary increases.

INTERDEPARTMENTAL SERVICES

The Interdepartmental Services Program allows the Bureau of Building Inspection to provide services to other City departments, such as City Planning, the Parking Authority, the Public Utilities Commission, and the Redevelopment Agency. These services include fee collection, inspection and plan checking.

BUREAU OF BUILDING REPAIR

The Bureau of Building Repair provides facilities repairs, maintenance and operation services to 250 City owned buildings at 135 different locations. This service is also available to all other City Agencies by Interdepartmental Work orders. Much of this work is accomplished by utilizing 14 different professional trades plus stationary engineers, custodians and security guards that make up 336 Bureau employees. To manage these activities, the Bureau has 2 programs that are supported through the General Fund, Capital Improvements, Bond Fund, Gas Tax and revenue producing agencies.

MAINTENANCE AND OPERATION OF BUILDINGS

The Bureau of Building Repair's primary responsibility is to maintain City owned facilities as follows:

1. Building operations - Provides building services including boiler operations, watches, and building managers at City Hall, Hall of Justice and Army Street Yard.
2. Building Maintenance - Performs preventive maintenance at 90 facilities and handles the recurring maintenance needs of

mechanical/electrical equipment.

3. Building Repair - Makes emergency, minor and major repairs to 90 buildings and grounds and their related utility systems.
4. Janitorial Service - Provides janitorial services to City Hall, the Hall of Justice, Army Street Yard, 450-460 McAllister, nine district Police Stations and the Range.

MAJOR BUDGET ADJUSTMENTS:

In 1991-92, the following major service level adjustments were made:

- Deletion of the graffiti removal activity and reduced elevator maintenance and janitorial services to district police stations.

In 1992-93, the following major service adjustments are proposed:

- Delete the nine District Police Stations and the Pistol Range from the Janitorial Service (\$138,000).
- Reduce the building repair hours (\$89,450).
- o Reduce Support Services cost to this program to minimize service reductions.

INTERDEPARTMENTAL SERVICES

This program provides maintenance and repairs, alterations and support services similar to those described in Maintenance and operations, to other City Department under work orders. In addition, special projects activity under this program provides support services for special events such as civic receptions, elections and inaugurations.

MAJOR BUDGET ADJUSTMENTS:

The program activities are supported under a work order system and based on direct need. No major service adjustments are anticipated.

BUREAU OF ENGINEERING

ENGINEERING PROGRAM

(See Bureau of Subdivision, Surveys and Mapping for description of Engineering Program)

CLEAN WATER PROGRAM

Three main services are provided by this Program:

A. SEWER SYSTEM INFORMATION SERVICES

This activity provides information and reviews plans for construction work on the 900 miles of sewers and 2000 miles of side sewers in San Francisco. These services are provided to private citizens, developers, public utilities, agencies, governmental jurisdictions and other City departments.

B. FLOODING EVALUATION AND PLANNING

This activity provides engineering services to evaluate flooding complaints and determine effective solutions to flooding problems.

C. ENGINEERING SERVICES

This activity provides mechanical engineering services to the Bureau of Water Pollution Control in support of their operation and maintenance of sewage treatment and pumping facilities. It also includes review of plans, reports and other documents submitted by City Planning, City Department, Redevelopment Agency, other governmental agencies and private developers for impact on the sewage system of projects such as Mission Bay, Rincon Annex, South Bay and Executive Park.

MAJOR BUDGET ADJUSTMENTS:

In 1991-92, the Clean Water Program contained the following adjustments:

- Transfer 10 people from CWP to BOE as part of the department's reorganization.
- Transfer the T.V. Sewer Inspection activity to the Bureau of Street and Sewer Repair as part of the department's reorganization.

In 1992-93, the following budget adjustments are proposed:

- Reassignment of 2 positions to provide new mandated utility marking on street construction projects (\$150,000).
- An increase in expenses for debt service.

INTERDEPARTMENTAL SERVICES

The Interdepartmental Services program consists of planning and designing of all civil, structural, mechanical, electrical, hydraulic and sanitary projects plus landscape architecture. Work is performed for the Department's own Capital improvement Program (SCAPE) and for the SCAPE's of the Recreation and Park Department, Sheriff, Fire Department and many other City Agencies.

MAJOR BUDGET ADJUSTMENTS:

In 1991-92, the budget adjustments included:

- Transfer of positions among Bureaus to reflect the DPW reorganization. No new positions have been added to the department's position count as a result of the reassignments.
- Deletion of four Engineering Student Trainee positions which will be funded under Temporary Salaries.

In 1992-93 the following budget adjustments are proposed:

- Transfer of positions among Bureaus to reflect reassignment of responsibilities (decrease of 5 positions (\$690,000)).
- The addition of 18 new positions (\$452,245) to provide maintenance engineering for the new Ocean Side Water Pollution Control Plant and provide design services for bond and grant programs.

BUREAU OF WATER POLLUTION CONTROL

WATER POLLUTION CONTROL

The Water Pollution Control operations Program operates and maintains all the City's sewage pumping stations, force mains, treatment plants, and effluent disposal facilities including outfalls. During dry weather all sewage on the east side of the City receives secondary treatment at the Southeast Plant and is discharged to the Bay while sewage from the west side gets primary treatment at the Richmond-Sunset Plant and is then discharged to the ocean through the Southwest ocean outfall. During wet weather, box sewers capture much of the storm runoff so it can be treated before discharge to the Bay and ocean. The laboratory staff conducts an extensive monitoring program which samples and tests raw sewage, plant effluents, many treatment processes, industrial wastes, and several points in the Bay and ocean near our discharge locations.

The Southeast Community Facility Commission is also included in this budget.

Funds for this program are largely derived from Sewer Service Charges, with the exception of those for the Earl P. Mills Community Facility, which are supplied by the General Fund.

MAJOR BUDGET ADJUSTMENTS:

Major budget adjustments in the 1991-92 budget included:

- Permanent, overtime and temporary salaries were transferred to the new Bureau of Environmental Regulation and Management (BERM) \$1,822,243, to Bureau of Engineering \$987,823, to WPC ID Budget \$293,708.

- One month funding for Stationary Engineering positions (20) to acquire staffing for the following year at oceanside Water Pollution Control Plant was requested at \$81,824.
- Object 109, \$278,000 was transferred to object 320 and \$153,800 to BERM. A net increase of \$427,236 was requested. Maintenance, laboratory and sludge disposal all require increases.
- Object 220 - \$231,900 transferred to BERM, WPC request increase of \$151,280. Similarly, after transfer of \$57,950 to BERM, the request in object 231 was up by \$22,500.
- Engineering salaries which were transferred to BOE are funded in object 320. \$896,971 pays for direct salaries, \$3,836 for OT and \$765,686 for indirect costs. Contract funds from object 102 and 109 are budgeted here in the amount of \$282,800.
- The estimate from Bureau of Light Heat and Power for power costs contains an increase of \$589,700.

In 1992-93 the following major adjustments are proposed:

- Three new positions are requested (\$96,723). Sixteen positions are transferred to the ID budget (\$755,935). Full funding is requested for five Stationary Engineer positions which were funded for one month in 91-92 positions (\$239,962).
- The overtime request has been increased by a transfer of funds from Permanent Salaries (\$452,996) to accommodate the new rotating watch schedule.
- Funds to support the new premium and Standby object were taken from Permanent Salaries and overtime (\$128,025).
- In object 109 an increase of \$130,384 is requested to accommodate various, mostly maintenance, projects which will address the needs of equipment and facilities which have not required attention until now, e.g., digester cleaning.
- \$300,000 was cut from water bills in object 120.
- An increase of \$823,979 is requested in object 130. Chemical costs have increased, new methods of operation require more chemicals, whose cost, however, is offset by a reduction in sludge hauling costs, some new essential odor reduction projects are anticipated and a realistic maintenance parts and supplies budget is needed, as evidenced by the serious shortfall in 91-92.
- The Regional Water Quality Control Board has begun to charge

In fiscal year 1991-92, the Bureau of Street Cleaning and Urban Forestry Budget contained the following major service adjustments:

- Restore equipment replacement funding for \$130,500 (1-Sweeper & 1-Pickup)
- Increase in 300 object series of over \$200,000, for fuel, Bureau's share of yard security and janitorial services, and mandatory health screening for field personnel.

In fiscal year 1992-93, the following budget adjustments are proposed:

- one time funding for increased Caltrans contract work at \$60,000. Recovery of costs will appear as revenues in future years.
- Increased materials and supplies object by \$90,000 to cover cost of mandated safety materials and supplies.
- Funding for increased costs of Bureau and Departmental Support functions at \$285,000.

INTERDEPARTMENTAL SERVICES

The Bureau of Street Cleaning and Urban Forestry provides various street cleaning and landscape maintenance services to other governmental agencies.

MAJOR BUDGET ADJUSTMENTS:

Major budget adjustments in the 1991-92 Budget included:

- Restoration of \$114,000 to permanent salaries from the one time equipment purchase for workfare crew trucks.
- Service level increase for tree maintenance funded by 1/2% sales tax funds.

In 1992-93, the following major adjustments are proposed:

- Increase deferred tree maintenance services funded by 1/2% sales tax funds of \$100,000.

BUREAU OF STREET & SEWER REPAIR

STREET REPAIR PROGRAM

The Street Repair Program has two major components: Street Maintenance & Repair and Bridges & Tunnels.

The Street Maintenance and Repair component includes:

Major street repairs requiring resurfacing, the application of

drastically increased Permit fees which will amount to an estimated \$52,000.

- An increase of \$146,014 in object 330 is requested, based on LHP's estimate.

INTERDEPARTMENTAL SERVICES

Major budget adjustments in the 1991-92 budget include:

- \$103,776 is moved to BERM and \$319,399 to BOE. For BERM analyses, six positions are added in the amount of \$281,672. one position at \$39,520 is reassigned to BWPC from CWP for administration of the Southeast Community Facility.

In 1992-93 the following major adjustments are proposed:

- Thirteen Stationary Engineer positions are transferred from the Direct budget. These positions will be used only for the startup of the oceanside Plant and will be supported by project funds until which time the plant is operating at a level such that staffing at the Richmond-Sunset Plant is no longer needed as is excess staff at the new plant.
- Three new Stationary Engineer positions are requested for the reasons stated above.
- Three laboratory positions are transferred from the Direct budget to work on BERM funded analyses.

BUREAU OF STREET CLEANING AND URBAN FORESTRY

STREET CLEANING AND URBAN FORESTRY

The Bureau's principal mission is to keep the City's streets and appurtenances clean and to care for public street trees and landscaped areas. The Bureau is responsible for 1950 curb miles of streets and center islands, 140 public stairways, the placement and maintenance of 2500 public litter receptacles, five public plazas, 20,000 publicly-owned street trees, and 210 acres of landscaped areas, including Sunset Boulevard and Brotherhood Way. The Bureau maintains a street tree permit system and a 24 hour-a-day/year-round emergency response capability to handle spills and trees downed during storms. The Bureau also coordinates Anti-Litter Programs with various City-wide community groups and works closely with the Public Works Citizens Advisory Board in carrying out tree care mandates under the San Francisco Urban Forestry ordinance.

MAJOR BUDGET ADJUSTMENTS:

Work order services of the Street Repair Program and Sewer Repair Program to other agencies. Examples include paving pathways for the Recreation and Park Department, yard paving for Muni and for the School District, and sewer services for the Port. In recent years, the overlay paving operation has been funded through IDWO with monies from BOE.

MAJOR BUDGET ADJUSTMENTS:

In 1991-92, no major service adjustments were proposed.

In 1992-93, no major service adjustments are proposed.

BUREAU OF ENVIRONMENTAL REGULATION AND MANAGEMENT

PRETREATMENT SERVICES

This activity regulates industrial waste discharge to the sewerage system in accordance with the City, State and Federal requirements. This service prevents pollutants from passing through treatment plants and harming the environment or causing a violation of City's NPDES permit, entering the treatment plant which may cause upset or limiting the sludge management options, and entering the sewerage system which may harm City employees.

USER CHARGE

This activity ensures that users of the sewerage system are equitably charged in accordance with their use. This activity includes implementation of an appeals program pursuant to City ordinance 191-78 and customer relations for over 150,000 accounts.

MAJOR BUDGET ADJUSTMENTS:

In 1991-92, the following major budget adjustments were made:

- An Increase of \$206,445 to provide full-year funding for staffing the expanded pretreatment program. No new positions have been added this year.
- A Waste Minimization Program to comply with State requirements (\$130,000)
- The Bureau of Water Pollution Control was provided laboratory services (\$508,479) and required a replacement graphite furnace atomic absorption spectrophotometer (\$80,000)
- New vehicles cost \$42,000

In 1992-93, the following major adjustments are proposed:

- An increase of \$351,908 for the Bureau of Water Pollution Control to provide laboratory services.

asphalt to moderately traveled streets to extend their life and localized repair of concrete streets;

Minor street repairs, including asphalt patching and repair of potholes;

Asphalt plant operations and maintenance, including management of the City's pavement recycling program;

Curb and sidewalk repair;

Repair of structures such as stairways, chain link fences, guard rails, and retaining walls.

Removal and cleanup of obstructive mud slides and debris from City streets.

The Bridges and Tunnels component includes the operation and maintenance of the Third Street, Fourth Street and Islais Creek lift bridges, and of air quality control equipment in the Robert C. Levy, Stockton and Geary-Masonic Tunnels.

MAJOR BUDGET ADJUSTMENTS:

In 1991-92, there were no major service adjustments proposed.

In 1992-93, there are no major service adjustments proposed.

SEWER REPAIR PROGRAM

The Sewer Repair Program is responsible for cleaning main sewers and catch basins, inspecting brick sewers, maintaining Clean Water Project structures, and repairing pipe main and side sewers. Also included is the repair of brick sewers, performed under work order by the Bureau of Building Repair.

MAJOR BUDGET ADJUSTMENTS:

In 1991-92, the budget contained the following major service adjustments:

The Sewer Television Inspection Unit, currently in the Clean Water Program, is being transferred to Sewer Repair. The transfer requires the movement of funds, but not positions, from Clean Water.

Emergency sewer services are being expanded to provide two shifts of sewer service workers on duty 7 days a week. San Francisco has become a 24-hour-a-day city and the service demands must be responded to.

In 1992-93, there are no major service adjustments proposed.

INTERDEPARTMENTAL SERVICES

- Substitute a 6266 Sr. Plan Checker and 6331 Building Inspector in ID Budget for Bureau Chief position. No new position was added to the department's position count.
- Five positions were reassigned to provide sufficient personnel for expanded duties in the area of hazardous materials.

In 1992-93 the following major service adjustments are proposed:

- Reassignment of 9 positions from Bureau of Environmental Regulation and Management for Hazardous Materials Program. (\$540,000)
- Transfer of positions among Bureaus to reflect other reassignments of responsibilities. Increase of 11 positions. (\$586,000)
- The addition of 21 new positions. 15 positions are for the Construction Management work related to Bond Fund capital projects that are now starting construction; 5 positions are to replace Construction Management position previously performed by consultant, and 1 position is for a Safety officer (\$481,000).

BUREAU OF SUBDIVISION, SURVEYS AND MAPPING

STREET USE MANAGEMENT

All General Fund budgets from Bureau of Engineering, Bureau of Construction Management, and Bureau of Subdivisions, Surveys and Mapping, have been combined and are reflected in Bureau of Subdivisions, Surveys and Mapping's budget for FY 1992-93. The four main activities provided for in this program are:

- Street Permits includes issuance of permits and collection of fees for roadway and sidewalk construction and/or encroachment into street or sidewalk space.
- Street Inspection includes street and sidewalk inspection and complaint investigation and resolution.
- Services of Bureau of Engineering include Pavement Management System, Curb-Ramp Program, Road Structure Inspection.
- Services of the Bureau of Construction Management include checking existing survey benchmarks and monuments throughout the City as required by law.

MAJOR BUDGET ADJUSTMENTS:

In 1991-92, the program contained the following adjustments:

- Decrease expenses by \$156,025 to reflect transfer of the Claims function to DPW Administration. The department's position count has not increased as a result of this

- The transfer of funding of items of equipment having a unit cost of \$1,000 or less and with a useful life of less than three years from equipment to material and supplies has reduced the equipment by \$39,400 and increased materials and supplies by \$29,900.
- Four vehicles to be replaced at a cost of \$53,600.

INTERDEPARTMENTAL SERVICES

(See Bureau of Construction Management for a description I.D. Program.)

BUREAU OF CONSTRUCTION MANAGEMENT

INTERDEPARTMENTAL SERVICES

The Bureau of Construction Management (BCM) provides Construction Management, Inspection, Contract Administration, Materials Testing, and Contract Specification Development Services on all civil, structural, mechanical and electrical projects for the Department of Public Work's Capital Improvement Program (CIP), CIP's of the Clean Water Program which are mandated by State and Federal Law, Recreation and Park Department, Sheriff, Fire Department, Airport and many other City agencies.

For 1992-93 it is proposed that the Bureau of Environmental Regulation and Management Interdepartmental Service budget be transferred to BCM. Responsible areas include:

A. SITE ASSESSMENT AND REMEDIATION

This activity protects the City from liability, ensures compliance with hazardous waste regulations, protects the health of construction personnel, avoids undue construction delays by implementing a program to assess construction and underground tank sites for the presence of hazardous materials, and conducts remedial action where necessary.

B. ASBESTOS

This activity consolidates the Department of Public Works activities regarding asbestos to provide a coordinated and consistent management program that protects employees and public health, and prevents undue delays in construction.

MAJOR BUDGET ADJUSTMENTS:

In 1991-92, the following budget adjustments were made:

reassignment.

- Revised to decrease salary and related dollars and increase OE-389 to reflect transfer of a survey crew to the new Bureau of Surveys and Mapping and to provide engineering consultation by the Bureau of Construction Management.

In 1992-93, the adjustments are that the four Street Use Management functions and funding listed above were transferred to Bureau of Subdivisions, Surveys and Mapping. Secondly, fees for sidewalk use are increasing.

INTERDEPARTMENTAL SERVICES

The Interdepartmental Services program consists of three activities, two of which have been transferred from the Bureau of Engineering. The three activities are:

- Subdivisions and Condominiums includes processes mandated in the State of California Subdivision Map Act, and the San Francisco Subdivision Code.
- Utility Regulation includes permit processing and plan checking, and inspection relative to approximately 7,000 utility excavation permits issued annually.
- Street Improvement Inspection includes the inspection of all construction occurring in the right-of-way that results from permits issued by BSSM.

Mayor Budget Adjustments:

In 1991-92, the following major adjustments were made:

- In February 1, 1991 the Department of Public Works reorganized; 17 positions from the Bureau of Engineering ID program and 2 positions from the Bureau of Engineering overhead program were transferred to the new Bureau of Subdivision, Surveys and Mapping. No new positions were added to the department's position count as a result of this reassignment.

In 1992-93, Utility Regulation and Street Improvement functions and funding were transferred from Bureau of Engineering to Bureau of Subdivisions, Surveys and Mapping.
